CoverWise AI - Policy Understanding Report

Generated 2026-10-07 | Decision-support only

IMPORTANT: CoverWise AI is a policy understanding and decision-support assistant. It does not provide financial, legal, medical or insurance advice and never recommends buying, switching or cancelling a policy. Extracted values may be incomplete or wrong. Always confirm every clause with the insurer or a licensed insurance advisor before deciding.

Your profile (as entered)

age: 62; n children: 3; planning child: True

Current policy: SureCare Plus (Sample)

- SureCare Plus (Sample) (Sample Shield Health Insurance Co. Ltd.) is a Family Floater policy with a sum insured of Rs. 500,000 and an annual premium of Rs. 14,200.
- Hospital stays are covered with 30 days of pre-hospital and 60 days of post-hospital expenses.
- Other listed benefits: day care, ambulance, domiciliary care, AYUSH.
- Waiting periods: 1 month initial wait; 36 months for pre-existing diseases; 24 months for listed procedures.
- Co-payment: 10% of admissible claims.
- Room rent: capped (1% of sum insured per day); ICU: capped (2% of sum insured per day).
- 4 disease-wise sub-limits (cataract, hernia, hysterectomy, joint replacement) and 14 listed exclusions apply.
- Restoration benefit: not offered. No-claim bonus: available.
- Family: dependent children covered; newborn: Newborn cover only from the next renewal; maternity not covered.
- Claims: cashless described, reimbursement described (process clarity 100/100).
- Renewal: grace period 30 days; portability mentioned.
- 3 clauses use discretionary or vague wording (for example 'as decided by the Company'); these need written clarification.
- Coverage Clarity Score: 34/100 - High Risk / needs advisor review.
- Main caution points: Co-payment of 10%; Pre-existing disease waiting period of 36 months; Specific-disease waiting period of 24 months.
- This is a reading aid, not advice. Confirm every point with the insurer or a licensed advisor.

Coverage Clarity Score: 34/100 | Risk level: High Risk / Needs advisor review | model confidence 86%

Method: Gradient-boosting score model + score bands; reasons from transparent rules. Rule-based cross-check: 38 (Caution Required). Citation coverage of key clauses: 100%.

Top reasons behind the score (vs an average policy)	Points
Restoration / recharge benefit (value: 0)	-11.2
ICU charges capped (value: 1)	-5.5
Pre-existing disease waiting (per month) (value: 36)	-5.4
Room rent capped (value: 1)	-4.5
Disease-wise sub-limits (each) (value: 4)	-3.7
Ambiguous / unclear clauses (each) (value: 3)	-3.3

Current policy: extracted coverage and restrictions

Clause	Value	Page
Insurer	Sample Shield Health Insurance Co. Ltd.	1
Policy type	Family Floater	1
Sum insured (Rs.)	500,000	1
Annual premium (Rs.)	14,200	1
Policy term	1 year, renewable for life	1
Entry age	91 days to 65 years for adults	1

Clause	Value	Page
Pre-hospitalisation (days)	30	2
Post-hospitalisation (days)	60	2
Initial waiting period (months)	1	2
Pre-existing disease waiting (months)	36	2
Specific disease waiting (months)	24	2
Co-payment (%)	10	3
Room rent limit present	Yes	3
ICU limit present	Yes	3
Disease-wise sub-limits (count)	4	3
Listed exclusions (count)	14	3
Restoration / recharge benefit	No	2

Dependent child coverage	Yes	1
Newborn coverage	Yes	2
Maternity coverage	No	2
Day care procedures	Yes	2
Ambulance cover	Yes	2
Cashless claims	Yes	4
Reimbursement claims	Yes	4
Grace period (days)	30	4

Current policy: risk flags and caution points

[MEDIUM] **Co-payment of 10%** (p.3) - You pay this share of admissible claims.
[MEDIUM] **Pre-existing disease waiting period of 36 months** (p.2) - Claims linked to pre-existing conditions are not payable during this period.
[MEDIUM] **Specific-disease waiting period of 24 months** (p.2) - Listed procedures (e.g. cataract, hernia, joint replacement) wait this long.
[MEDIUM] **Room rent is capped** (p.3) - 1% of sum insured per day. Choosing a costlier room can reduce other payable charges too - confirm 'proportionate deduction'.
[MEDIUM] **ICU charges are capped** (p.3) - 2% of sum insured per day
[MEDIUM] **4 disease-wise sub-limits** (p.3) - cataract, hernia, hysterectomy, joint replacement
[MEDIUM] **3 discretionary or vague clauses** (p.3) - Wording such as 'at the Company's discretion' or 'from time to time' can change outcomes.
[MEDIUM] **Maternity not covered** (p.2) - You mentioned planning a child; maternity expenses are stated as not covered.
[MEDIUM] **Pre-existing waiting period matters more at your age** (p.2) - At age 62, a 36-month wait can overlap years in which claims are more likely.
[LOW] **No restoration / recharge benefit** (p.2) - Sum insured is not refilled after it is exhausted.

Proposed policy: Horizon Max (Sample)

- Horizon Max (Sample) (Northstar Sample General Insurance Ltd.) is a Family Floater policy with a sum insured of Rs. 1,000,000 and an annual premium of Rs. 19,800.
- Hospital stays are covered with 60 days of pre-hospital and 90 days of post-hospital expenses.
- Other listed benefits: day care, ambulance, AYUSH, OPD.
- Waiting periods: 1 month initial wait; 48 months for pre-existing diseases; 36 months for listed procedures.
- Co-payment: Conditional: 0% / 20% depending on conditions (e.g. age).
- Room rent: no cap stated; ICU: not clearly found.
- 2 disease-wise sub-limits (cataract, joint replacement) and 12 listed exclusions apply.
- Restoration benefit: available. No-claim bonus: available.

- Family: dependent children covered; newborn: Newborn cover from day 1; maternity covered after 36 months.
- Claims: cashless described, reimbursement described (process clarity 100/100).
- Renewal: grace period 30 days; portability mentioned.
- 3 clauses use discretionary or vague wording (for example 'as decided by the Company'); these need written clarification.
- Could not be confirmed from the document: ICU limit present, Co-payment conditions (age/zone based).
- Coverage Clarity Score: 53/100 - Caution Required.
- Main caution points: Co-payment up to 20%; Long pre-existing disease waiting period (48 months); Age-linked co-payment may apply to you.
- This is a reading aid, not advice. Confirm every point with the insurer or a licensed advisor.

Coverage Clarity Score: 53/100 | Risk level: Caution Required | model confidence 62%

Method: Gradient-boosting score model + score bands; reasons from transparent rules. Rule-based cross-check: 51 (Caution Required). Citation coverage of key clauses: 92%.

Top reasons behind the score (vs an average policy)	Points
Co-payment (per %) (value: 20)	-12.4
Ambiguous / unclear clauses (each) (value: 5)	-10.7
Pre-existing disease waiting (per month) (value: 48)	-10.2
Specific/initial waiting (per month) (value: 36)	-4.5
Maternity covered (value: 1)	+1.2
ICU charges capped (value: 0)	+1.5

Proposed policy: risk flags and caution points

[HIGH] **Co-payment up to 20%** (p.3) - You pay this share of every admissible claim. Conditional: 0% / 20% depending on conditions (e.g. age)
[HIGH] **Long pre-existing disease waiting period (48 months)** (p.2) - Claims linked to pre-existing conditions are not payable during this period.
[HIGH] **Age-linked co-payment may apply to you** (p.3) - Conditional: 0% / 20% depending on conditions (e.g. age)
[MEDIUM] **Specific-disease waiting period of 36 months** (p.2) - Listed procedures (e.g. cataract, hernia, joint replacement) wait this long.
[MEDIUM] **3 discretionary or vague clauses** (p.2) - Wording such as 'at the Company's discretion' or 'from time to time' can change outcomes.
[MEDIUM] **Maternity waiting period of 36 months** (p.2) - Check this against your family planning timeline.
[MEDIUM] **Pre-existing waiting period matters more at your age** (p.2) - At age 62, a 48-month wait can overlap years in which claims are more likely.
[MEDIUM] **Not found in document: ICU limit present** - The clause could not be located. Ask the insurer to confirm it in writing.

Unclear or inconsistent items to verify

- ICU limit present
- Co-payment conditions (age/zone based)

Current vs proposed policy

Item	Current	Proposed	Verdict
Sum insured (Rs.)	500,000	1,000,000	**Improved**
Annual premium (Rs.)	14,200	19,800	**Info**
Pre-hospitalisation (days)	30	60	**Improved**
Post-hospitalisation (days)	60	90	**Improved**
Initial waiting (months)	1	1	**Same**
Pre-existing waiting (months)	36	48	**Worse**
Specific-disease waiting (months)	24	36	**Worse**
Co-payment (%)	10	20 (conditional)	**Worse**
Room rent capped	Yes	No	**Improved**
ICU charges capped	Yes	Not found	**Unclear**
Disease sub-limits (count)	4	2	**Improved**
Listed exclusions (count)	14	12	**Improved**
Restoration / recharge	No	Yes	**Improved**
No-claim bonus	Yes	Yes	**Same**
Dependent child cover	Yes	Yes	**Same**
Newborn cover	only from the next renewal	from day 1	**Improved**
Maternity cover	No	Yes	**Improved**
Maternity waiting (months)	Not found	36	**Unclear**
Day care	Yes	Yes	**Same**
Ambulance	Yes	Yes	**Same**
Domiciliary	Yes	Not mentioned	**Unclear**

Item	Current	Proposed	Verdict
AYUSH	Yes	Yes	**Same**
OPD	Not mentioned	Yes	**Improved**
Claim process clarity (0-100)	100	100	**Same**
Ambiguous clauses (count)	3	3	**Same**
Grace period (days)	30	30	**Same**

Premium vs coverage

Premium changes by +39% while the sum insured changes by +100%. Premium per Rs. 1 lakh of cover moves from Rs. 2,840 to Rs. 1,980. 10 compared items look better and 3 look worse in the proposed policy - weigh these against what matters for your family.

The proposed policy appears stronger in these areas

Sum insured (Rs.), Pre-hospitalisation (days), Post-hospitalisation (days), Room rent capped, Disease sub-limits (count), Listed exclusions (count), Restoration / recharge, Newborn cover, Maternity cover, OPD

The proposed policy needs caution in these areas

Pre-existing waiting (months), Specific-disease waiting (months), Co-payment (%)

Unclear - must be verified

ICU charges capped, Maternity waiting (months), Domiciliary

Switching risks

- A new policy usually starts a fresh 30-day initial waiting period unless continuity / portability credit is granted - verify in writing.
- Waiting-period credit is typically recognised only up to the previous sum insured; the extra sum insured may carry fresh waiting periods - confirm with the insurer.
- The proposed policy states a longer pre-existing waiting period (48 vs 36 months). Ask how much of your served waiting period is credited.
- The insurer changes. Check the portability application timeline and what happens to accrued no-claim bonus.

User-specific caution points

- At age 62, the proposed policy's age-linked co-payment (Conditional: 0% / 20% depending on conditions (e.g. age)) may apply to you.
- You mentioned planning a child: the proposed policy's maternity waiting period is 36 months; the current policy covers maternity: False.

Questions to ask your advisor / insurer

1. Does the co-payment apply to every claim, or only for certain ages, zones or treatments? Can it be waived?
2. From which date does the pre-existing disease waiting period count, and which conditions does the insurer treat as pre-existing?
3. Which exact procedures carry the specific-disease waiting period?
4. Is there proportionate deduction on other charges if my room costs more than the limit?
5. Is there any separate cap on ICU charges? Please confirm in writing.
6. What is the exact rupee sub-limit for each listed treatment, and is it per eye / per event / per year?
7. How does the insurer exercise the discretionary clauses (underwriting, 'as decided by the Company')? Are there examples?
8. Is maternity / newborn cover available, after how many months, and with what limit?
9. Does the restoration benefit apply to the same illness, and how many times per year?
10. Can the maternity waiting period be reduced or is it fixed?
11. If I move from my current policy, which waiting periods restart, and how much previous waiting-period credit will be recognised?
12. Is the extra premium linked to specific benefits I can verify in the policy wording?

Limitations and responsible-AI note

Values were extracted automatically from the uploaded documents and may be incomplete or misread, especially for scanned files. Scores come from a model trained on a synthetic dataset and describe how clear and restrictive the wording appears; they do not predict whether a claim will be paid. This report does not recommend buying, switching, renewing or cancelling any policy. A human review of the original policy wording by the insurer or a licensed advisor is required before any decision.
